2. Al Westphal, House Foreign Affairs Committee staff, telephoned to state that there was an item in yesterday's STAR concerning Abdessalam's visit to the U. S. indicating that it was part of a concerted French government effort. Westphal thought we would be interested and I thanked him for calling this to our attention. [] has been notified.

3. Senator Leverett Saltonstall telephoned the Director asking about the [] item for the NIS program referring to our letter of 24 June to Senator Hayden. Saltonstall apparently indicated that this could not be made a part of our regular budget without bringing it to the attention of the full committee and suggesting that it be made available to the Agency through our reserve. The Director apparently indicated he would defer to the judgment of Saltonstall on this and presumably it will be handled as a reserve item. Mr. Saunders (Comptroller) has been notified and [] is making a memorandum for the record of the telephone conversation.

4. [] inquired about S. Res. 115 which is Senator Henry Jackson's resolution to investigate the policy making machinery of the government. I furnished [] with the Senate Report number indicating the general nature of the resolution and its purpose and also referred [] to two of Senator Jackson's speeches, one at the National War College and the other approximately a week later which detailed Jackson's thinking. [] was advised we had no official position on this resolution but that a number of individuals were concerned with the possibilities inherent in such an investigation. [] thanked me and said he thought he could get the reference material.

5. John Hogland, Deputy Assistant Secretary of State for Congressional Affairs, telephoned inquiring if we knew of a Central Bureau of Investigation. He indicated that [] of Oxford, Maryland, apparently had been approached by someone for an interview prior to going abroad. [] subsequently advised that [] does have an appointment scheduled for tomorrow as a result of a telephone call to []. This information was furnished to Mr. Hogland who was appreciative and said he presumed [] was calling him merely to confirm the official nature of the interview.
